## 92nd General Assembly February 28, 2019 – Session Day 46

### TODAY AT THE CAPITOL

The Senate will convene at 11:00 a.m. and the House at 1:30 p.m.  
Legislative Calendar: [www.arkleg.state.ar.us](http://www.arkleg.state.ar.us)

**\*\*\* CALL TO ACTION \*\*\***

### HIGHWAY FUNDING

**SB 336 and HB 1495** by Sen. Terry Rice and Rep. Mike Holcomb and **SJR 14 and HJR 1018** by Sen. Lance Eads and Rep. Jeff Wardlaw are Governor Hutchinson's highway funding plan.

**SB 336** was amended yesterday to remove one House sponsor and is expected to be considered on the House floor Monday afternoon.

**HJR 1018** received a Do Pass Recommendation yesterday from the House State Agencies Committee and is expected to be considered on the House floor Monday afternoon.

**SB 336 and HB 1495** seek to levy an indexed wholesale tax on motor fuel and places revenue from that and other sources in the State Highway Fund for maintenance of streets, highways and bridges. It also adds annual fees of \$100 and \$200, respectively, to hybrid and electric vehicle registration and transfers casino tax revenues in excess of \$31,200,000 annually with a minimum of \$35,000,000 to the State Highway Fund.

**SJR 14 and HJR 1018** seek to amend the constitution to continue the one-half percent sales tax that provides additional funding for four-lane highways, county roads and city streets. **SJR 14** may be considered this afternoon in the Senate State Agencies Committee.

Randy Zook, our president and CEO, testified in support of **HJR 1018** along with others yesterday morning. He told the Committee that the Chamber would have liked to have seen even more funding for highways and said our membership will enthusiastically support the campaign.

Here's a link to a story published today by *Talk Business & Politics* that discusses yesterday's hearing: <https://talkbusiness.net/2019/02/house-committee-advances-highway-tax-extension/>

Funding for highways is a State Chamber/AIA priority; please ask your State Representative to vote FOR SB 336 and HJR 1018 in the House Monday afternoon.

## BALLOT INITIATIVE REFORM

**SB 346** received a Do Pass recommendation yesterday morning from the House State Agencies Committee.

**HB 1489** is on this morning's agenda in the Senate State Agencies Committee.

**SJR 10 and HJR 1008** await consideration in their respective State Agencies Committees.

**SB 346/HB 1489** and **SJR 10/HJR 1008** by Sen. Mathew Pitsch and Rep. DeAnn Vaught is a package designed to reform the ballot initiative process. The bills are identical, as are the resolutions. We worked with multiple parities to develop this reform package.

**SB 346 and HB 1489** seek to require the State Board of Election Commissioners, rather than the Attorney General, to determine whether a submitted ballot title and popular name are sufficient. These bills also amend the signature approval process by the Secretary of State. Finally, the bills clean up requirements on signature gatherers.

**SJR 10 and HJR 1008** seek to amend the constitution to revise the process for ballot petitions. It repeals the 30-day signature cure period, moves the filing deadline for initiatives and signatures to January 15 and sets a deadline to file legal challenges on April 15, both dates in the General Election year. It also increases the vote majority required by the Legislature to make amendment referrals from a simple majority to a three-fifths (60%) majority and increases the number of counties from which a set number of signatures are required from 15 counties to three-fifths of the counties (45).

**Please ask your legislators to support these bills and resolutions.**

## ACTIVE BILLS WE SUPPORT

### UNEMPLOYMENT INSURANCE – STATE CHAMBER/AIA PRIORITY BILL

**SB 298** by Sen. Kim Hammer and Rep. Robin Lundstrum was amended yesterday to add 22 House sponsors and three Senate sponsors. It was also sent back to committee. This bill was developed by the Department of Workforce Services (DWS) and addresses one of our Priority Issues in the 2019 Session.

**SB 298** adjusts the amount of wages paid by employers that is subject to the unemployment insurance tax, by calculating adjusted amounts according to unemployment statistics and the fund balance of the unemployment insurance trust fund. If it was in effect today, the wage base would drop from \$10,000 to \$8,000. It is possible, that by the time the law goes into effect, the wage base could be reduced to \$7,000, which is the federally enforced minimum.

A bill we had filed in 2017 reduced the wage base from \$12,000 to \$10,000. DWS reports that change produced \$43 million in annual savings to employers. Sen. Kim Hammer told the Senate the estimated savings to the business community from **SB 298** is \$55 to \$65 million.

### TRANSPORTATION

**HB 1561** by Rep. Austin McCollum and Sen. Mat Pitsch is on this morning's agenda in the House Public Transportation Committee. This bill would authorize a firm or individual to operate up to three fully autonomous vehicles on streets and highways when participating in a pilot program approved by the State Highway Commission. It also seeks to provide that the autonomous vehicle pilot program will automatically be approved 60 days after it is submitted to the Highway Commission.

## ACTIVE BILLS WE SUPPORT

### CONCURRENT CHALLENGE SCHOLARSHIP

**SB 343** by Sen. James Sturch received a Do Pass recommendation yesterday from the Senate Education Committee and is on this morning's Senate Calendar. It would create the Arkansas Concurrent Challenge Scholarship, establishing requirements, funding and

award amounts. It would require that the student be a resident, or at least one parent be a resident, in order to be eligible for the scholarship. It would fund the scholarship with excess funding returned to the Office of the Arkansas Lottery from the previous academic year. Also it would provide that \$20,000,000 is needed to maintain the Scholarship Shortfall Reserve Account; if less than \$250,000 is available a scholarship will not be awarded. Finally, it would provide that a student may be awarded \$125 for up to two endorsed concurrent enrollment credit courses.

### **MOTION PICTURE INCENTIVES**

**HB 1461** by Rep. Carlton Wing and Sen. Mathew Pitsch is on this morning's agenda in the Senate Agriculture and Economic Development Committee. It will extend the Digital Product and Motion Picture Industry Development Act through 2029 and provides that the financial incentives are at the discretion of the Executive Director of the Economic Development Commission (AEDC). This bill is part of the AEDC's legislative package.

### **ECONOMIC DEVELOPMENT**

**HB 1490** by Rep. Carlton Wing and Sen. Mat Pitsch is on this morning's agenda in the Senate Agriculture and Economic Development Committee. This bill is backed by the Arkansas Economic Development Commission and we support the bill.

This is the first major review of the Consolidated Incentives Act of 2003 since it was established. The current law is unclear regarding eligibility criteria of several incentive programs, notably the targeted business and research and development credits. The purpose of amending the existing law is to encourage higher paying jobs.

### **EDUCATION BILLS WE SUPPORT**

**HB 1416** by Rep. Jim Sorvillo received a Do Pass recommendation Tuesday from the House Education Committee and is on this afternoon's House Calendar. It would remove the maximum daily membership, currently 20,000 students, for school districts that are subject to minimum area and attendance requirements.

**HB 1412** by Rep. Jon Eubanks seeks to prohibit a school district from using public funds to pay a teacher's or classified employee's membership dues in an educational professional organization. It awaits consideration in the House Education Committee, which meets today.

**SB 349** by Sen. Alan Clark seeks to create personnel reporting requirements for schools based on low reading assessment levels, revising achievement gap categorical funding and making the school ineligible in year three for funding if no improvements are made. It awaits consideration in the Senate Education Committee.

**SB392** by Sen. Bob Ballinger and Rep. Jim Dotson seeks to repeal exemptions that are applied to teachers who have negotiated contracts through collective bargaining or are employed in a district consolidated into a district with a recognized negotiating organization. It awaits consideration in the Senate Education Committee.

### **LICENSING AND REGULATION**

**HB 1060** by Rep. Roger Lynch is on this morning's agenda in the House Public Health, Welfare and Labor Committee. It would implement requirements for continuing education for heating, ventilation, air conditioning and refrigeration licensees, providing that all applications after July 1, 2020 must be accompanied by proof of completion of mandated courses. It would charge the HVACR Licensing Board with establishing the continuing education program and promulgating rules and guidelines for its administration by Dec. 31, 2019. This is an industry-supported bill.

### **TORT REFORM**

There have been three joint resolutions filed this session that address "tort reform."

**SJR 8**, if referred and adopted, will authorize the General Assembly to adopt caps on punitive and noneconomic damages. That means, in the 2021 session, the legislature will have the ability to file bills and debate various options, ranging from caps on both punitive and noneconomic, only one of them, or none at all. The State Chamber/AIA was involved in the drafting of **SJR 8** and fully supports it.

Two other identical measures were filed, **HJR 1022 and SJR 17**. These measures will authorize the General Assembly to adopt caps on punitive damages only. While the State Chamber/AIA appreciates the willingness of those sponsors to consider damage caps, a measure allowing for a cap on punitive damages only, does not go far enough. In order for damage caps to truly work to the benefit of our economy and healthcare system, caps on noneconomic damages should also be part of the legislature's authority.

## **BILLS WE OPPOSE**

### **PROPERTY TAX ASSESSMENT CHALLENGES**

**HB 1562** by Rep. Stephen Meeks and Sen. Missy Irvin and others seeks to change the process regarding payment of property taxes when there is an assessment dispute. Currently, personal property taxpayers, who challenge their assessment, pay any undisputed amount and the balance is paid into escrow with the Circuit Court until the case is decided. Real property taxpayers, including mineral rights owners who challenge their assessment, are not required to pay any of their tax until the case is decided. The reason for this historic handling of these cases is the fact that personal property is mobile while real property cannot move. As filed, **HB 1562** seeks to treat real property taxpayers who challenge their assessment, the same as personal property challenges, which requires payment at the beginning of the challenge.

Historically, mineral interests have been treated as real property. The value of mineral interests is subject to volatile and wide changes in value, driven by oil/gas prices that lead to assessment challenges. We believe **HB 1562** goes too far by treating all real property the same way as personal property when there is an assessment challenge.

### **PUBLIC BANK**

**SB 390** by Sen. Hammer is on this morning's agenda in the Senate State Agencies Committee, but it may come up in committee tomorrow. This bill seeks to require state agencies to deposit all cash funds into the State Treasury Money Management Trust to be invested. It also seeks to: exempt higher education institutions and payments by the Department of Education from the Public School Fund to districts, requires the charges and fees be deposited into the Long Term Reserve Fund that were previously deposited into the State Treasury in a fund to benefit the Treasurer of State, and designates interest earned on the Long Term Reserve Fund as special revenue.

We join our banking members and the Arkansas Bankers Association in opposing this bill's creation of a public bank because:

The Current Marketplace is Meeting Financial Needs

- The regulated Arkansas banking system has a long track record of meeting deposit needs and there is no evidence to the contrary.

A Public Bank is Risky Business

- The state has enough to worry about without adding banking to its responsibilities.
- Decisions can become driven by politics and capital reserves can be diverted for other political priorities.
- Funds will not be insured with the FDIC like banks. For deposits over the FDIC insurance levels, banks must pledge securities to insure them.

Schools Benefit Most with the Current System

- Will the state pay over market rate on deposits? Banks do.
- Banks directly support school infrastructure. They build gyms, football fields and contribute funds to many school infrastructure needs.
- For some hometown banks, these deposits are their biggest form of liquidity. These deposits allow banks to, in turn, make home loans, farm loans, small business loans and more, which, in turn, allows banks to invest funds into schools and the community.

### **SPECIAL ELECTIONS**

**HB 1402** by Rep. Justin Gonzales and Sen. David Wallace awaits consideration in the House State Agencies Committee, but it could come up tomorrow. It would require any special elections in years with a preferential primary election or general election to be held on those election dates. It would also require special elections in off-cycle years to be held on the Tuesday next after the first Monday in May or the Tuesday after the first

Monday in November. Additional provisions include: requiring special elections be announced 75 days prior to election; provides exemptions for special elections to fill vacancies, special runoff elections, or emergency special elections; provides local boards that vote for a tax levy must be approved by voters in the next available election, and makes its effective date contingent upon sufficient funding. We are one of multiple interests opposed to this bill.

### **FOIA EXPANSION**

**SB 231** by Sen. Kim Hammer was amended yesterday and awaits consideration in the Senate State Agencies Committee. This bill seeks to redefine public records and the Freedom of Information Act to extend to a private entity expending a minimum of 20 percent of its time, resources and efforts in support of a government entity. It awaits consideration in the Senate State Agencies Committee. We join many entities opposed to this bill.

### **DECEPTIVE TRADE PRACTICES**

**HB 1462** by Rep. Jimmy Gazaway awaits consideration in the House Insurance & Commerce Committee, which meets today. It provides that a person has a cause of action for actual damages or injury resulting from deceptive trade practices and may recover those damages and attorney's fees. It also removes the definition of actual financial loss as used for deceptive trade practices. This bill seeks to repeal a bill we filed in 2017. Please ask your Representative to vote NO on HB 1462.

### **INVASION OF PRIVACY**

**SB 230** by Sen. Kim Hammer awaits consideration in the Senate Judiciary Committee. It seeks to create a statutory civil action for invasion of privacy, authorizing a person to bring suit for damages and injunctive relief against a person who improperly intrudes into his or her private affairs or publicizes the person in a false light. It awaits consideration in the House State Agencies Committee.

### **NIGHT SKY PROTECTION**

**HB 1309** by Rep. Stephen Meeks was amended a third time yesterday and awaits consideration in the House Public Health, Welfare & Labor Committee. As filed, this bill seeks to create the Nighttime Environment Protection Act to regulate outdoor night lighting fixtures. It would also establish cost and other considerations for a state agency, public corporation, county or municipality to use public funds to operate, maintain, install, or cause to be installed, shielded outdoor lighting in new or replacement outdoor lighting fixtures. An amendment was adopted yesterday. We have multiple members opposed to this bill.

### **STATE CHAMBER/AIA TRACKED BILLS**

New House bills filed yesterday: 14 | Total House bills filed: 613

New Senate bills filed yesterday: 4 | Total Senate bills filed: 448

New bills added to our tracking: 17 | Total tracked bills and resolutions: 364

New bills added to our tracking: [https://arkansasstatechamber-my.sharepoint.com/:w/p/khall/ET6wco698dxDnHncozXdw\\_oBRxd5FHxburT8A0EQ3g56VA?e=rU4am1](https://arkansasstatechamber-my.sharepoint.com/:w/p/khall/ET6wco698dxDnHncozXdw_oBRxd5FHxburT8A0EQ3g56VA?e=rU4am1)

All bills we are tracking are posted on our website, by category, and can be reviewed by clicking this link: <https://www.arkansasstatechamber.com/governmental-affairs/legislative-tracking/>
